The general public is invited to attend an informational meeting about possible improvements to the I-17/Carefree Highway traffic interchange in northern Phoenix (map, above). The Arizona Department of Transportation (ADOT), in cooperation with the Federal Highway Administration (FHWA), is conducting a re-evaluation of alternatives for reconstructing the interchange to improve traffic flow.

This meeting is a follow-up to the public meeting held on September 22, 2005. The purpose of the meeting is to report on public feedback from the previous meeting, update the public on the study findings, present a preferred alternative, and get public comments on the preferred alternative. The comments received from this meeting will be considered as the study team finalizes the concept for improving the interchange. Representatives from ADOT, FHWA, and engineering consultants will be present to answer your questions and address your concerns. Conceptual drawings and map displays will be available for viewing.
